DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 4/27/07 have been fully considered but they are not persuasive.
2. The applicant has submitted an affidavit swearing behind the Flynn '390 reference claiming priority to 60/045,072 filed 04/29/1997.
3. The examiner agrees that the applicant has claimed priority to certain aspects of the 60/045,072 reference. However, the applicant has amended both claims and specification since this original date. Such language as it is appearing in the claims is not afforded priority to this 60/045,072 document.
4. For example the '072 document makes no reference to pro-perfumes a component now found in claim 1.
5. As the instant claims now contain language recently introduced the examiner maintains that the Flynn reference fall under a 102 (b) rejection and as such the applicant's affidavit does not overcome this rejection.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Flynn (US 5,827,812) or alternatively under 35 USC 103 as being obvious in view of Flynn et al and further in view of Henderson (US 2,940,287) and further in view of Williams (US 3,234,660).
8. These rejections are maintained for those reasons presented in the previous action.
9. Concerning the newly presented claims, these prior art references address each of the steps required in the newly presented claims including the contacting step, the mechanical energy step, the specific fluid required and the adjuvant as demonstrated in the previous rejection.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
